From the desk of the CEO

Some of the finest moments in the life of a product happen when it is acknowledged for exceeding its genre itself.

Meko has experienced this brush with excellence not once but many a time.

I attribute this rare accomplishment to the team spirit which pervades across all the sections of Meko's activities... manufacturing, quality management, marketing and customer management.

When quality becomes a habit, you simply can't go wrong.

I congratulate my colleagues and work staff for having taken Meko where it is today and for keeping their eyes in the horizon where they can see the rise of a new market leader..

Shivas Rawal, The face behind the Continuous Quality Improvement and Sustained Success of MEKO for the last 15 years.

With best wishes,
Surinder Rawal
CEO
